

Skagit Valley Medical Center Adds Neurology Services

Skagit Valley Medical Center is pleased to announce the addition of Neurology services at their Mount Vernon location. Effective February 18, 2009, Dr. Patti Brettell will join SVMC bringing experience treating neurologic conditions including epilepsy, neuropathy, stroke, dementia, ALS and migraines. She has a special interest in caring for patients with Multiple Sclerosis, Myasthenia Gravis and Parkinson's Disease, but welcomes patients with all neurologic conditions.

Dr. Brettell comes to SVMC after most recently practicing at Cascade Neurology in Bellingham. She is board certified by the American Academy of Psychiatry and Neurology. Dr. Brettell cares for patients 17 years of age and older and says, "I strive to develop a cooperative relationship with my patients that promotes understanding, compassion and healing."

The Skagit Valley Medical Center Neurology Department is located on the second floor of the SVMC Founders Building in a shared suite with Gastroenterology and Rheumatology. Appointments are available Monday through Friday from 8:00am to 5:00pm. Patients interested in scheduling an appointment may call (360) 428-2555.

Skagit Valley Medical Center is a multi-specialty medical group that has served area residents since 1971. Today the medical staff has expanded to include more than ninety physicians and allied healthcare professionals in twenty medical specialties caring for patients in Skagit and North Snohomish counties. For more information about Skagit Valley Medical Center, please visit www.svmc.net. For information about Neurology services or to schedule an appointment, please call (360) 428-2555.
