Cardiology Moves to New Anacortes Location

ANACORTES, WA -- Effective January 26, 2009, Skagit Valley Medical Center Cardiology (formerly Pacific Northwest Cardiology) will practice in a new location in Anacortes. The new practice location is 1220 22nd Street, Suite B and was formerly occupied by Dr. Ezatolah Rezvani. The telephone and fax numbers for the office will remain the same.

The new location offers expanded clinical space which will allow more Cardiology patients to be cared for in Anacortes. Additionally, the increased office size will allow more medical specialties to rotate to this location. In the future, Skagit Valley Medical Center plans to have a Pulmonologist available in Anacortes several times a month to care for patients. The Mount Vernon office will remain in the same location.

Skagit Valley Medical Center is a multi-specialty medical group that has served area residents since 1971. Pacific Northwest Cardiology joined SVMC in 2008 bringing twenty-five years of cardiovascular experience to the clinic. Today SVMC's medical staff has expanded to include more than ninety physicians and allied healthcare professionals caring for patients in Skagit and North Snohomish counties. For more information about the Skagit Valley Medical Center, please visit www.svmc.net. For questions regarding SVMC Cardiology in Anacortes, please call (360) 293-0308.
