

## **Skagit Valley Medical Center Foot & Ankle Specialists Move to Main Campus**

Skagit Valley Medical Center is pleased to announce that SVMC's Foot & Ankle Specialists are moving on to the main campus in Mount Vernon. Effective August 10, 2009, patients of Dr. Jay Cocheba and Dr. David Bruce will be seen at 1400 E. Kincaid Street. The Podiatry Department will be located on level one of the Founders Building immediately inside the building's Kincaid Street entrance. The new location will make Podiatry services more accessible and convenient for SVMC patients.

Podiatrists focus on preventing, diagnosing and treating conditions and disorders of the foot and related structures. Skagit Valley Medical Center's Foot & Ankle Specialists offer orthotic therapy, including custom arch supports, diabetic foot care, wound care, reconstructive foot and ankle surgery, bunions and hammertoe diagnosis and treatment, corns and callus treatment, heel and arch pain diagnosis and treatment and patient education.

For questions about Podiatry services or the new location of Skagit Valley Medical Center Foot & Ankle Specialists, please call (360) 848-4120.
