

Preparation Instructions for a Screening Mammogram

- Do not apply any lotion, deodorant, body powder or perfume around the breasts or under your arms on the day of your exam. These items can show up on the film.
- If you have had a previous mammogram, please provide the name, address and telephone number of the facility where the study was done.
- Wear a 2-piece outfit so that you can easily undress from the waist up.
- Notify the technologist if there is a possibility that you could be pregnant.
- Notify the technologist if you have breast implants.
